Our design-build team is industry leading, and our benefits package is too!

We are excited to be the first and only in our industry to offer Gradifi – the unique and valuable benefit to help recent college graduates more quickly pay down student loan debt and start achieving other financial goals in life faster.

*How does it work?*

Full-time Opus Design Build, L.L.C. associates who have graduated with a relevant degree can participate in this program. Through Gradifi, Opus will pay \$100 a month, applied directly to the loan principal, ultimately shortening the loan's term.

For example, if you applied an additional payment of \$100 per month over 48 months to the average \$35,000 10-year student loan at an average 6.8% interest rate, you'd pay off your loan 16 months sooner for a total savings of nearly \$7,100 in both principal and interest combined.
